

# KARBOKEBENE

ACTIVATED CHARCOAL  
250mg

dietary supplement

## General information

KarboKEBENE 250 mg tablets - contains activated charcoal, a product of natural raw material based on a special technology with the formation of a network of pores, which causes a large adsorption surface.

Activated carbon has the property of non-selective adsorption of most types of exogenous and endogenous toxins, bacteria, altered food products, heavy metal salts, gases, alkaloids and chemicals.

Activated charcoal is not absorbed from the digestive tract, does not cause mucosal irritation and is easily excreted in the feces along with toxins.

Activated charcoal helps reduce flatulence after eating.

The beneficial effect is obtained by consuming an amount of 1 g, at least 30 minutes before a meal and 1 g immediately after a meal.

## Recommendations for use:

KarboKEBENE 250 mg tablets is recommended:

- in case of bloating and/or flatulence;
- in case of excessive consumption of alcoholic beverages and food;
- accidental ingestion of chemical compounds.

## Ingredients/tablet:

Activated charcoal - 250 mg; loading agent: potato starch.
