Leaflet KEBENE ENZY: 125x210 mm

K SHTANTZA

KEBENE®

enzy

Pool of
digestive enzymes
+ Simethicone

Directions for use

Orodispersible powder
Citrus taste
Gluten-free

Double action:
Supports digestion
Reduces symptoms of bloating and abdominal cramping

INGREDIENTS
Simethicone 125 mg, Pool of digestive enzymes 97.5 mg (alpha-galactosidase, amylase, protease, glucoamylase, lipase, cellulase, lactase, pectinase), Maltodextrin, Sorbitol, Xylitol, Silicon dioxide, Citric acid, Flavour.

INDICATIONS
Relief of gastrointestinal disorders symptoms caused by an excessive production of gas, such as flatulence, meteorism, eructation, bloating and abdominal cramps. Also useful in the case of irritable bowel syndrome (IBS) for the symptomatic relief of abdominal bloating.

HOW IT WORKS
The main mechanism of action of the product is due to the presence of simethicone which has the ability to lower the surface tension of gas bubbles present in the gastrointestinal tract favoring their dispersion. It is not absorbed from the gastrointestinal tract and does not interfere with the digestive processes.
Is also present a pool of 8 digestive enzymes which helps to improve food digestion (by splitting them into smaller elements, easily absorbed from the gut) counteracting the effects linked to a possible malabsorption of them, e.g. an excessive fermentation with resultant excess production of gas.

HOW TO TAKE AND POSOLOGY
Take 1 sachet immediately after each main meal, and when necessary, before bedtime. Do not exceed the maximum dose of 4 sachets daily. Pour the contents of the sachet directly on the tongue.

HOW TO STORE
Keep out of the reach and sight of children.
Store in a dry and cool place, protected from light and away from heat sources.

WARNINGS
Product not intended for use in children.
Do not use the product after the expiry date which is stated on the package. The expiry date refers to the product stored correctly, in undamaged package.
Do not use if the package has been opened or damaged.
Consult the doctor in advance to use while pregnant and breastfeeding.
Do not use in case of hypersensitivity to one or more components.
In case of adverse reactions stop using the product and consult the doctor.
Consult the doctor in advance to use the product if taking any other oral treatment.
If still not feeling better after 10 days of treatment, it is recommended to consult the doctor.

PACK
The product is available in 10 single-dose sachets of 2 g each.
