

COOKIES POLICY

This cookies policy is applied to all users of the website kebene.ro. The data below are provided to the user of this website in order to inform it about the installation, use and administration of cookies by TERAPIA S.A in the context of navigation of users on this website.

What are the cookies?

We are using the notion of „cookies” in order to refer to cookie modules and similar technologies used to collect data automatically. An „Internet Cookie” (also known as „browser cookie” or „HTTP cookie” or „cookie”) represents a small file, formed of letters and numbers, stored on the computer, mobile terminal or other equipments of an user by which internet is accessed. The cookies do not affect the hardware or software of your computer. The cookies may be deleted anytime or you may use the browser settings to prevent the installation of it.

The cookies are installed by demand issued by a web-server to a browser (i.e.: Internet Explorer, Firefox, Chrome). The cookies, once installed, have a definite term of existence, remaining „passive”, as they do not contain software programs, virus or spyware and will not access the data on the hard-drive of the user where installed.

A cookie includes two parts: name of cookie; and contents or value of cookie. Technically, only the web server sending the cookie may access it again when a user returns to the web page associated to such web server.

In the European Union (EU), the use of cookies is governed by Directive 2009/136/EC European Parliament and Council of 25th November 2009 amending the Directive 2002/22/EC on universal service and rights of users related to the networks and services of electronic communications, of Directive 2002/58/EC on personal data processing and protection of confidentiality in the sector of public communications and (EC) Regulation no. 2006/2004 on collaboration of national authorities in charge to provide for the enforcement of the legislation in the field of consumer protection.
